PROJECT EXPERIENCE

House Pro — Household Management Application

- Designed MVC web application with CRUD operations using C#/.Net and SQL.
- Worked within a small group using agile techniques including wireframes and user stories.

WORK EXPERIENCE

Great Ape Keeper, St. Louis Zoo, St. Louis, MO, January 2015 – June 2022

- Maintained all aspects of husbandry for the great ape and small primate collection.
- Curated a positive team work atmosphere through open communication and group-oriented training and workshops.
- Solved complex, multi-step problems daily while implementing time management and prioritizing projects.
- Overhauled the enrichment and training program, allowing smoother training of more than 15 new keepers.
- Planned and oversaw large enrichment projects to improve daily life of animals and encourage community engagement. Worked with over 8 different departments of the Saint Louis Zoo to facilitate these projects.

Researcher, Impact Group, St. Louis, MO, May 2016 – March 2017

- Curated detailed reports for transposed clients.
- Followed specific syntax according to guidelines provided.
- Continually self-assigned projects once past projects were completed allowing smooth diminishment of task query.
